NEW SOUTH WALES

STATISTICAL REGISTER

FOR

1951-1952

LIBRARY
-5 MAR 1971
COMMONWEALTH BUREAU OF CENSUS & STATS.

S. R. CARVER,

Government Statistician.

Published by Authority of
THE GOVERNMENT OF NEW SOUTH WALES.

Wholly set up and printed in Australia by
A. H. PETTIFER, GOVERNMENT PRINTER, SYDNEY, NEW SOUTH WALES.

1956

Paper cover 10s.
Cloth cover 17s.

*62601—K 160

PREFACE.

THIS volume contains seven parts which have already been issued separately, and are now presented collectively, accompanied by a General Index covering the subjects treated.

The figures should be read in conjunction with the "Official Year Book of New South Wales."

Part "Population and Vital Statistics" has been omitted from this issue, but it will be included in the next volume.

The Government Statistician wishes to express his thanks to the Commonwealth Statistician, to the responsible officers of the various State and Commonwealth Departments, and to others who have supplied all desired information, often at considerable trouble.

Bureau of Statistics and Economics,
Sydney, September, 1956.

INDEX OF PARTS.

Part.		Page.
	General Index	iv
I.	Factories and Works	1
II.	Rural Industries and Settlement, and Meteorology	75
	Section I.—Primary Production	83
	II.—Land Settlement	150
	III.—Meteorology	152
III.	Local Government	179

Fuel Used in Mines 571, 573

Furniture—
- Exports 339
- Imports 326
- Production 68

Furriers, Establishments 16, 23, 30, 43, 51

Gas, Coal—
- In Factories 27–35
- Production 62, 68

Gas Stoves, Production 73

Gas Works 18, 25, 27, 33, 46, 54, 55, 62
- Municipal 210

Glass and Glass Bottles—
- Bottle Production 68
- Exports 331
- Imports 322, 330
- Prices, Average Wholesale 534, 537, 541
- Works 14, 21, 28, 41, 49, 55

Gold—
- Exports 340
- Imports 332
- Miners 559
- Prices 288
- Production 559, 560, 561, 568

Gramophones and Records—
- Exports 339
- Factories 18, 25, 32, 45, 53
- Imports 331

Grapes. [*See also* Fruit, Dried.]
- Area 88, 91, 107
  - In Regional Divisions 146
- Production 88, 91, 114
- Value 92, 93
  - Per Acre 93

Grasses, Area Sown 88

Gypsum 559, 565

Hats and Caps—
- Factories 16, 23, 30, 43, 51, 55, 58
- Production 58, 69

Hay—
- Area of Crops 88, 91, 123
  - In Regional Divisions 146
  - In Shires and Municipalities 94
- Prices, Wholesale 127
- Production 88, 91, 123, 124
  - In Shires and Municipalities 102
  - Regional Divisions 147
  - Value 92, 93
- Stocks on Farms 124

Hay Irrigation Area—
- Crops 105, 112, 120
- Land Tenure 151
- Livestock 131

Health. [*See* Public Health.]

Hides. [*See* Skins and Leather.]

Holdings 83
- Classification under Western Lands Act 151
- In Regions 146

Honey—
- Exports 323, 333
- Prices, Wholesale 127
- Production 144

Hops—
- Imports 324, 364
- Used in Breweries 60, 63

Horses—
- Exports 335
- Foals 133
- Imports 324

58.	Articles produced in Factories, 1949–50 to 1951–52	65–74

FACTORY STATISTICS.

SCOPE OF THE STATISTICS AND DEFINITIONS OF TERMS USED.

Scope.—The statistics are compiled annually in respect of—

Number and size of factories; number of persons employed in various categories; ages of persons employed; salaries and wages paid; rated horse-power of engines ordinarily in use and those in reserve or idle; book value of land, buildings, plant and machinery (not capital invested); value of material, containers, repairs and replacements, power, fuel and light (including water and lubricating oil) used; quantities and values of fuel used; value of output; value of production; and in a number of industries, quantity and value of principal materials used and articles produced.

Factory.—For the purposes of the statistics a " factory " is an establishment in which four or more persons are employed, or power (other than manual) is used, in any manufacturing process. The following industries are not included—Farriery, Smallgoods-making, Photography Studios, Laundries, Florists and Seedsmen.

Average Number of Persons Employed.—

(A) *During Period of Operation* represents the aggregate of the average weekly number of employees in each factory—the average being calculated for the period the factory was operating during the year.

(B) *During the Whole Year* represents the aggregate of the average number of employees in each factory—the average being calculated for the period of twelve months.

All persons employed in the manufacturing activities of a factory are counted as factory employees, including operatives, managerial and clerical staff at the factory, working proprietors and " out workers." Persons engaged in selling and distribution, such as salesmen, travellers and carters engaged solely on delivery of manufactured goods are not included.

Rated Horse-Power of Engines Installed.—Statistics of power used in factories other than central electricity generating stations relate to the " total rated horse-power " of engines ordinarily in use and of engines in reserve or idle, omitting obsolete engines. In the case of central electricity generating stations the figures refer to the " total rated capacity " of engines and generators installed.

Value of Materials used includes the value, as at the factory, of the materials and stores used, containers, tools replaced, and materials used in repairs to plant. The following are exceptions :—

(*a*) Where factory operations consist of assembling manufactured parts of machines, motor cars, etc., the value of the parts is not included;

(*b*) Where goods in bulk, e.g., tobacco, tea, are made up in packets, the value of the bulk goods is not included.

Value of Fuel, etc., Consumed.—This item includes coal, coke, fuel, oil, tar fuel, gas, wood, etc., and the cost of electric power and light used. For convenience the cost of lubricants and water used are also included under this heading.

Value of Output is the value of the goods manufactured or work done. It is based generally on the selling value at the factory, exclusive of cost of delivery and of excise duty (if any).

Value of Production is the value added to materials by the processes of manufacture. It is calculated by deducting from the value of output the value of materials and fuel used (as defined above).

[*Note.*—Materials, fuel, output and production are valued as at the factory.]

THE FORM AND INSTRUCTIONS.

A copy of the front of the Form issued to proprietors of factories is reprinted on the following page. Provision is made on the back of the form for the collection of particulars of materials used and articles produced.

A copy of the instructions issued for the guidance of those responsible for furnishing the information is also shown.

NOTE.—Statistics of factories and works published in this Part are not a complete record of either the income or expenditure of the undertakings concerned, and are not intended to show their financial position collectively or individually.

TOTAL VALUE OF OUTPUT ... ... £.....

I CERTIFY that, to the best of my knowledge and belief, the particulars which have been entered in this form are correct.

(*Signature of Proprietor or Manager*)_____

(Date)_____ 1952.

New South Wales.

INSTRUCTIONS TO PERSONS FILLING IN FACTORY RETURNS.

General.

1. *These returns are collected under the authority of the Census Act*, 1901, *and any person concerned who refuses or neglects to answer or answers untruly any of the questions on the return is liable to a penalty of* £20. *An extension of time will not be granted unless it can be shown that it is impracticable to supply the return within the time allowed.*

2. *Your returns will be regarded as strictly confidential. The information given in these forms is used only for statistical purposes to arrive at aggregates for each kind of industry. The contents of individual returns will not be disclosed in any way, and will not be seen by any person other than employees of this or the Commonwealth Bureau of Statistics.*

3. (*a*) *Several Industries in One Establishment.*—In large establishments where two or more industries are carried on, separate forms will be supplied, which should, if practicable, be filled in for each industry. The particulars relating to the whole establishment should be allocated, as nearly as possible, to each industry.

(*b*) *Several Branches of one Establishment in Different Locations.*—If practicable, a separate return should be completed in respect of each address. Where this is not possible a composite return covering the operation of all branches will be accepted providing the average weekly employment is shown separately for each location.

4. The line "Nature of Work Done" should be used for a brief description of the main operations or processes carried out, *e.g.*, Brick-making, Shirtmaking, Motor Repairing, Bread Baking, Sawmilling, etc.

5. Where a manufacturing business is carried on in connection with a wholesale or retail trading business, the return must be restricted to the details of the *manufacturing branch only.* That portion of the premises used for manufacturing purposes should be separately valued and shown under Part C. *Particulars concerning Salesmen, Travellers, Collectors, and Retailing Storemen must NOT be included with persons employed in the factory, or in salaries and wages paid.*

Explanation of Items Required.

6. *Period Worked.*—The time the establishment was working during the year is to be given in calendar months, holidays during working period being also included.

7. *Average Weekly Number of Persons Employed.*—This means the average weekly during the period of operation. For example, for an establishment working the whole year the average will be the sum of the *total* employees for each week of the year divided by 52; the average for an establishment working three months will be the sum of the weekly totals divided by 13, and similarly with other periods. The total of the average numbers employed must be distributed under the various groups as shown.

Note.—Carters (on wages—not contractors) employed in bringing material for manufacture should be included, but not those engaged entirely in the delivery of manufactured goods, as the value of output of such goods is the selling value "at works," excluding all delivery costs or charges. If the carter's work be divided in this respect his time and wages should be apportioned accordingly.

8. *Salaries and Wages Paid.*—

Working Proprietors.—No amount of remuneration is required to be shown.

Other Employees.—The total amounts of salaries or wages paid to all employees during the year are required to be given.

Pay Roll Tax.—The amount paid as PAY ROLL TAX must not be included as salaries and wages paid.

9. *Engines Employed to Drive Machinery.*—Number and total rated horse-power are required separately for Engines ordinarily in use and for engines in reserve or idle (*i.e.*, in use occasionally, as during periods of breakdown by other engines or power supply). Obsolete engines must be omitted. If the same power is used in the one establishment for more than one "industry" the horse-power of the engines should be allocated, if practicable, as indicated in 3 above.

10. *Value of Land and Buildings used for Works and Factory Purposes.*—Where the Land, Buildings and Fixtures are the property of the occupier, the values stated should be the depreciated values or book values less any depreciation reserve existing in respect of them. If the premises are rented, state the amount of rent payable, exclusive of rates and taxes.

11. *Value of Machinery and Plant.*—This should include the value of all machinery, implements and tools used; also plant for the conveyance of raw materials (such as trams, carts, horses, etc., and casks in the case of a brewery). In brickyards, potteries, and glassworks the value of the kiln should be included under this head, and not as a building. The values stated should be the depreciated values, or book values less any depreciation reserve existing in respect of them. Where rent is paid for machinery the amount payable must be stated.

12. *Cost of Power, Fuel and Light Used.*—Care should be exercised to see that the costs are not duplicated in any of the other items and that full particulars of quantities asked for are given for each kind of fuel. Coal used in the manufacture of coke and gas, coke used in Steel Furnaces, and acetylene gas and oxygen should not be included here but shown as a raw material opposite Item (13).

13. *Materials Used, etc.*—Item 13—The value quoted should be the cost landed at the factory of all materials actually used during the year. In addition the value of goods in process at the beginning of the year should be included in this item. All subsidies, rebates, etc., paid to the producer of the raw materials should be excluded.

Making-up or Treating Customers' Materials.—Include in Item 13, the value at cost only of maker's own materials, such as trimmings, cottons, etc. (dyes, etc., in dyeing) used, and in Part E, Item 15B, the amount charged to customers for making-up or treating their materials.

Repair Work of any Kind.—The value at cost of all materials used in repairing should be included in Item 13, while the amount charged for making repairs should be shown in Part E, Item 15B.

Other Costs of Production.—Costs such as insurance, taxation, etc., must not be included anywhere on the form. This is a return of selected items of factory statistics and it is not intended to embrace all items of cost nor to reveal profits or losses. Only those costs specifically mentioned on the form are to be shown thereon.

Assembling the Manufactured Parts of Machines, Motor Cars, etc.—Where manufacturing operations consist only or partly of assembling the manufactured parts of machines, motor cars, etc., the value of the parts should not be included in the cost of materials used, nor in the value of output. The value of output (Part E, Item 15B) should include the actual labour cost of assembling the parts, cost of fuel and power used, any additional expenses of assembly, and profit made on such work.

Finished Goods Purchased for Re-sale.—The value of finished goods purchased for re-sale without treatment, must not be included anywhere.

14. *Value of Output.*—Item 15A.—The value here given should be the selling value at factory to customers of all goods made or processed during the year (including by-products) after deducting all delivery costs and charges and after adding any bounty or price stabilization subsidy received by the manufacturer on the finished product. That portion of the goods manufactured and remaining unsold at the end of the year should be valued at current rates.

Item 15B.—The value here given should be the amount charged to customers for other work done, such as repairs, renovations and alterations and work done on commission.

Goods in Process of Manufacture.—The value of goods in process at the end of the year just completed must also be included in the value of output (Item 15B). Similarly, the value of goods in process at the beginning of the same year must be added to the "cost of materials" used (Item 13).

Costs of Installation, etc.—Where the selling price of manufactured goods includes installing or fixing (shop and window fittings, tiles, fibrous plaster sheets, etc.) the charges for transport, installation, erection or fixing of such goods must be deducted in valuing output in Item 15A. Employees engaged in such work, and their wages, must also be excluded from Part A.

15. *Excise and Sales Tax.*—Must not be included in the value of output or in the particulars given of any article manufactured.

16. *Bounty or Subsidy.*—The amount received as bounty or subsidy (of any kind) on the production of any article must be included in the "value" of goods manufactured (Item 15A).

Directions Relating to Special Industries.

Bakeries.—Carters and all persons engaged solely in delivery and in selling the commodities produced should be excluded. The output value should be the selling value of bread, etc., made, less all delivery and selling costs.

Brick, Pottery and Tile Works.—The value of materials used shown in Part D must include wages of pitmen and all other costs incidental to obtaining clay and delivering at the kiln. Such employees and the wages paid to them should, therefore, not be included in Part A. *The value of the kiln must be included as part of your plant and not as a building.*

Cold Storage.—The value of the commodities placed in the cold store should not be included in the cost of materials used (Part D) nor in the value of the output (Part E). The amount to be shown in Part E, Item 15B, should include the actual labour cost, the cost of fuel and power used, any additional expenses of storing, and profit made on such work.

Food-packing, Tobacco-cutting and Packing, Tea-blending and Packing, Bottling and Grading Establishments.—In these and other similar establishments where imported or other goods in bulk are made up in packets, but no actual manufacturing is done, only the value added to the material by the operation should be shown in Part E, Item 15B. This value may be ascertained by subtracting the cost of materials used from the wholesale selling value of the finished goods.

Newspapers, Magazines, and Journals.—If the newspaper, magazine, or journal is printed by the proprietors, only the persons employed in the printing should be included in the return. The value of the output is not required, but all other particulars must be furnished. In other cases, where the newspaper or journal is printed for the proprietors by another person, it should be treated in the return of the printer as ordinary job printing.

PART I.—FACTORIES AND WORKS

NEW SOUTH WALES

* Average Weekly Number of Working Proprietors during period of operation in 1951-52 was: males 12,955; females, 1,358; persons, 14,313. § Affected by general industrial dispute. ‡ Affected by coal strike and power restrictions.

† For 1949-50 and earlier years the figures refer to the number on factory payrolls on the pay-day nearest the fifteenth day of each month. In 1950-51 the basis was changed to the last pay-day in each month.

No. 32.—Ages of Persons on Factory Payroll: last Pay-day in June, 1952.

NOTE.—Table 57 lists in alphabetical order the principal raw materials used in factories in New South Wales, but it does not purport to show the total consumption of these items in factories. The statistics shown relate only to the total recorded usage of the raw material in a particular statistical class (i.e., industry) or classes—generally the principal classes in which the raw material is used. Raw materials used by factories which themselves produced the raw material as an intermediate product are included in the figures. Particulars shown in this table do not necessarily represent the total of a raw material used in producing any of the articles shown in Table 58.

No. 57.—Raw Materials used, treated, etc., in certain Industries, 1950–51 and 1951–52—*continued.*

NOTE.—Table 57 lists in alphabetical order the principal raw materials used in factories in New South Wales, but it does not purport to show the total consumption of these items in factories. The statistics shown relate only to the total recorded usage of the raw material in a particular statistical class (i.e., industry) or classes—generally the principal classes in which the raw material is used. Raw materials used by factories which themselves produced the raw material as an intermediate product are included in the figures. Particulars shown in this table do not necessarily represent the total of a raw material used in producing any of the articles shown in Table 58.

No. 57.—Raw Materials used, treated, etc., in certain Industries, 1950-51 and 1951-52—*continued.*

TABLE 69. (*bottom line*) : 8,046,456—94,297—359,000.

SECTION I.—PRIMARY PRODUCTION.

Statistics for 1952–53. Statistics for an additional year (1952–53) in respect of the principal summary tables in Part II. are shown in abbreviated form on page 76.

Table No.		Page.
	Rural Industries.	
	Copy of Form used for Collection Agricultural, Dairying and Pastoral Statistics for the season 1951-52	79
1.	Rural Holdings, Area, Residents thereon 1948 to 1952	83
2.	Land use on Rural Holdings, 1936–37 to 1949–50	83
3.	Building, Construction and Repairs on Rural Holdings, 1947–48 to 1951–52	83
4.	Area, Crops, Live Stock in Divisions, 1951–52	83
	Rural Labour—	
5.	Persons Permanently Employed on Rural Holdings, in Divisions, 1951 and 1952	84
6.	Persons Permanently Employed on Rural Holdings, 1943 to 1952	84
7.	Employees Working for Wages, 1942–43 to 1951–52	85
8.	Machinery on Rural Holdings, 1947 to 1952	85
9.	Tractors on Rural Holdings, 1939 to 1952	85
10.	Value of Production of Primary Industries, 1941–42 to 1951–52	86
	Agriculture.	
11.	Cultivated Holdings, Principal Crops, 1942–43 to 1951–52	87
12.	Holdings growing Principal Crops, in Divisions, 1951–52	87
13.	Area, Production, and Average Yield of various Crops, 1951–52	88
14.	Vegetables, Area, Production and Value, 1950–1951 and 1951–52	89
15.	Number of Fruit Trees and Production, 1949–50 to 1951–52	89
	Various Crops, 1941–42 to 1951–52—	
16.	Area	90
17.	Production and Highest Recorded Production	90
18.	Average Yield per Acre	90
19.	Value of Production of Agricultural Industry, 1942–43 to 1951–52	92
20.	Average Value per Acre of Various Crops, 1942–43 to 1951–52	93
	In Shires and Municipalities of each Division—	
21.	Area under Grain, Hay and Green Fodder Crops, 1951–52	94
22.	Production of Grain and Hay Crops, 1951–52	102
23.	Area under Vegetables, Fruit, and Miscellaneous Crops, 1951–52	106
24.	Production of Principal Vegetables, Fruit, and Miscellaneous Crops, 1951–52	114
	Wheat—	
25.	Area, Production and Yield per acre, in Divisions, 1942–43 to 1951–52	122
26.	Area, Production and Exports, 1897–98 to 1951–52	123
27.	Varieties Sown, 1946–47 to 1951–52	123
28.	Prices—Export, Wholesale and Net Return to Grower, 1937–38 to 1951–52	123
29.	Area sown with specified varieties of Oats, 1951–52	124
30.	Silage Made, in Divisions, 1950–51 and 1951–52	124
31.	Silage and Hay, Production and Stocks, 1941–42 to 1951–52	124
	Fertilizers and Manures—	
32.	Artificial Manures used on Crops and Pastures, 1941–42 to 1951–52	124
33.	Superphosphate used on Crops, 1942–43 to 1951–52	125
34.	Used on Specified Crops—1950 and 1951	125
35.	Superphosphate used on Wheat, in Divisions, 1950 and 1951	126
36.	Average Monthly Wholesale Prices of Produce at Sydney, 1952	127
	Grazing and Dairy Farming.	
	Live Stock—	
37.	In Shires and Municipalities in each Division, 1952	128
38.	Horses, in Divisions, 1943 to 1952	132
39.	Cows in Milk, in Divisions, 1948 to 1952	132
40.	All Cattle, in Divisions, 1943 to 1952	133
41.	Interstate Movement of Cattle, 1941–42 to 1951–52	133
42.	Calves, Foals, Lambs, 1942 to 1952	133
43.	Pigs, in Divisions, 1948 to 1952	134
44.	Size of Pig Herds, 1952	134
45.	Type of Sheep, in Divisions, 31st March, 1951 and 1952	135
46.	Sheep, in Divisions, 1943 to 1952	136
47.	Sheep, Elements of Increase and Decrease, 1942 to 1952	136
48.	Breeds of Sheep, at 31st March, 1942 to 1950	136
49.	Sheep Flocks, 1891 to 1950	137
50.	Interstate Movement of Sheep, 1941–42 to 1951–52	137
	Wool—	
51.	Shearing, Quantity and Value of Production—1937–38 to 1951–52	138
52.	Average Clip, Sheep and Lambs, 1947–48 to 1951–52	138
53.	Wool sold at Auction, New South Wales, 1937–38 to 1951–52	138
54.	Lambing in Divisions, 1948–49 to 1951–52	139

SECTION I.—PRIMARY PRODUCTION—*continued.*

Table No.		Page.
	Meat—	
55.	Slaughtering, 1942 to 1952	139
56.	Production of Meat, 1941–42 to 1951–52	139
57.	Prices of Fat Stock at Homebush, Monthly, 1951	140
58.	Value of Production of Pastoral Industry, 1942–43 to 1951–52	140
59.	Prices of Fat Stock at Homebush, Monthly, 1952	141
	Dairying Industry—	
60.	Value of Production of Dairy Industry, 1941–42 to 1951–52	141
61.	Butter, Cheese and Bacon, Made in Factories and on Farms—Divisions, 1945–46 to 1951–52	142
62.	Monthly Production of Butter, in Factories, 1933–34 to 1952–53	142
63.	Average Yield of Butter per Cow, 1932–33 to 1951–52	143
64.	Butter Prices—Export, Home Consumption and Return to Farmer, 1936–37 to 1951–52	143
65.	Milk Production and Distribution, 1941–42 to 1951–52	143
	Poultry and Bees.	
66.	Poultry—Number, Production, and Value, 1941–42 to 1951–52	144
67.	Poultry on Commercial Poultry Farms, 1943 to 1952	144
68.	Beekeeping, 1946–47 to 1951–52	144
69.	Production of Honey and Beeswax, 1941–42 to 1951–52	144
	Regional Statistics—Rural Industries.	
70.	Live Stock and Shearing, 1951–52	145
71.	Rural Holdings and Area of Principal Crops, 1951–52	146
72.	Production of Principal Grain and Hay Crops, 1951–52	147
	Forestry.	
73.	State Forests and Timber Reserves, 1944–45 to 1950–51	148
74.	Receipts and Payments of Forestry Commission of New South Wales, 1946–47 to 1950–51	148
75.	Timber—Production and Oversea Imports, 1939–40 to 1951–52	148
	Fisheries.	
76.	Licences Issued, Boats Engaged, Value of Boats and Equipment, 1946–47 to 1951–52	149
77.	Oyster Culture, 1946–47 to 1951–52	149
78.	Production—Quantity and Value, 1946–47 to 1951–52	149

Time Ball.—The Time Ball at the Sydney Observatory is dropped every day at 1 p.m. Standard Time. The Time Ball at Newcastle is controlled by signals from the Sydney Observatory.

Standard Time.—The mean time of the 150th meridian of longitude (or 10 hours) east of Greenwich, England, is the Standard Time throughout New South Wales, except for certain purposes in the Municipal District of Broken Hill and the Electorate of Sturt, for which the mean time of the 135th meridian of east longitude is adopted.

Position of Sydney Observatory.—Latitude, 33° 51′ 41·1″ south; longitude, 151° 12′ 23·10″ east; altitude, 138 feet.

(FACSIMILE OF FORM OF COLLECTION).

If you have sold or transferred your holding since 1st April, 1951, you should immediately notify the Police Collector in whose patrol the holding is situated.

You should supply him, also, with the name of the present occupier and with details of production between 1st April, 1951, and the date of sale or transfer.

Information given in individual Returns is strictly confidential and for statistical purposes only.

* Includes area sown for green food. In 1927-28 and previous years all areas fed-off were included in this column. In later years areas fed-off with value less than the value on the farm of five bushels of grain at current price were considered to have failed entirely. In such cases the acreage was allocated to grain or hay according to the purpose for which sown.

† Flour has been expressed as its equivalent in wheat (1 ton of flour=48 bushels of wheat prior to 1950-51, and 46·3 bushels in 1950-51 and later years).

* Excluding Albury (regarded as a Victorian selling centre). † Scoured wool has not been converted to a greasy basis.
‡ Auctions suspended and wool purchased under contract by the United Kingdom. "Amount Realised" includes the equalisation dividend.
§ During this period the annual average weight of a bale fluctuated between 295 lb. and 319 lb. for greasy wool and between 217 lb. and 234 lb. for scoured wool.

† Prices based on averages of heavy and medium weights.

NOTE.—The above prices for sheep represent the averages for all sheep, whether shorn or woolly; but as a general rule the fat sheep at market in January and February are shorn; during March and April they have growing fleece; from May to August they are woolly and in September to December they comprise both shorn and woolly. Relatively few crossbred wethers and ewes are marketed at Homebush.

NOTE.—The above tables are based upon the records of the Commonwealth Meteorologist. The divisions correspond approximately with the statistical divisions shown on the map in the frontispiece of the Official Year Book of New South Wales and listed in tables in other parts of this volume. Where divisions in the above table are subdivided into two sections, the letters N, S, E, or W indicate the northern, southern, eastern or western portion of the division concerned.

NOTE.—The above table shows the ratio of actual to normal rainfall each month, the normal rainfall being the average over a long period of years ended 1929.

No. 14.—Monthly Rainfall, 1947 to 1951—Representative Stations in Divisions.

NOTE.—For monthly rainfalls at representative stations from the earliest date available in each case to 1925 see Statistical Register, 1924-25 and for years 1920 to 1939 see Statistical Register 1939-40. The average annual rainfall, at a number of stations over a period of years is shown in Table 17 of this section.

NOTE (—) Denotes no record, and (...) no rainfall during the month.

(Monthly rainfall in points; 100 points are equal to 1 inch.)

EXPLANATORY NOTE.

Local Governing Bodies in New South Wales comprise Municipal, Shire and County Councils. Seventeen of the municipalities are proclaimed cities. With the exception of the Sydney County Council, all councils are regulated by the Local Government Act, 1919, as amended. The City of Sydney was regulated by the Sydney Corporation Act until brought under the provisions of the Local Government Act on 1st January, 1949, when the City boundaries were extended to incorporate eight former suburban municipalities.

Statistics in this section are mainly financial, and show *inter alia* details of revenue, expenditure (from revenue and loans), capital indebtedness, property valuations and rating. Comparative summary tables relate to 1951 and earlier years (1952 or 1953 in a few instances) and the detailed statistics published in respect of individual councils (Tables 20 to 66) relate to the year 1950.

Local Government activities are classified broadly as follows :—

(i) *Ordinary Services.*—This group includes roads and footpaths, sanitary and garbage services, parks and reserves, council properties, housing, health and public services (for details see Tables 10 and 11). These services come within the scope of each council's general fund, and special and local funds which are similar in nature to the general fund.

(ii) *Trading Undertakings.*—These are for the supply of electricity, gas, water, building materials and ice, and the provision of abattoirs and sewerage. Separate funds are kept for each undertaking.

Particulars of Ordinary Services expenditure as shown in the summary tables are not presented in the same form as in the statements of revenue accounts prepared by councils. The accounts of councils are composite in character and show in combination expenditure from both revenue and loans. In the summary tables herein expenditure from each source is shown separately—expenditure from revenue in Tables 8, 11 and 12, and expenditure from loans in Tables 14 and 15. By such means particulars of councils are shown in a form which is more commonly used by public authorities.

The revenue and expenditure of trading undertakings are shown on a " profit and loss " basis, the same form as in the accounts prepared by councils.

The activities of individual councils are shown in the following tables, viz.—

(a) *Municipalities* (*including the City of Sydney*) *and Shires* in Tables 20 to 58. Additional information is also shown for the cities of Sydney and Newcastle in Tables 1 to 19. Ordinary Services expenditure as appearing in Tables 23 and 46 is in the same form as in councils' accounts, and differs, therefore, from totals shown in the summary tables, which have been adjusted as described above. Expenditure on such services as parks, baths, markets and property, which has been capitalised, is not included in these tables, but is shown in total in Tables 24 and 47.

(b) *County Councils* (*including the Sydney County Council and Grafton and South Grafton Water Board*) in Tables 59 to 66.

Information relating to the Metropolitan Water, Sewerage and Drainage Board and the Hunter District Water Board is shown in Tables 67 to 75.

Amalgamation of Areas (Division of Cumberland).

On 1st January, 1949, the following amalgamations of local government areas were made under the provisions of the Local Government (Areas) Act, 1948. As a result of this legislation the number of municipalities and shires in the Division of Cumberland was reduced from 66 to 39.

* The metropolitan area as here defined includes the City of Sydney and twenty-six suburban municipalities named on page 192. It differs from the metropolis as used for general statistical purposes in that it excludes the whole of Holroyd municipality. † See note "Amalgamation of Areas", page 183.
‡ Not available; these valuations are not made by all shires.
§ In addition there are 35 county councils providing services over more than one municipality or shire. See Tables 59, 62 and 65.

No. 2.—Municipalities and Shires—Valuations of Ratable Property, 1921 to 1953.

The *Unimproved Capital Value*, as shown below, is the amount which the fee-simple of the land might be expected to realise if offered for sale on such reasonable conditions as a *bona-fide* seller would require, assuming the improvements thereon had not been made.

The *Improved Capital Value* is the amount which the fee-simple of the land, with improvements and buildings thereon, might be expected to realise.

The *Assessed Annual Value* is nine-tenths of the fair average rental of land with improvements thereon.

† Includes contributions to county councils. ‡ Depreciation charged in councils' accounts is deducted in order to remove from the total expenditure duplication which arises from the inclusion in expenditure of (1) purchase of assets from revenue and depreciation of those assets, and (2) repayment of loans expended on the purchase of assets and depreciation of the assets. The amount of depreciation deducted cannot be apportioned amongst the individual items of expenditure.

* *Gross Expenditure* is the total expenditure from revenue derived from all sources; i.e., revenue raised by councils and receipts from Government in respect of main roads, unemployment relief and national works undertaken by councils for the Government. † *Net Expenditure* is the expenditure from councils' own revenue, ascertained by deducting from Gross Expenditure the amounts received from Government as shown in Table 7 in respect of "Ordinary Services." ‡ Includes for the City of Sydney sinking fund earnings and proceeds from sales of residue lands not treated as expenditure prior to 1949. These amounted to £179,981 in 1949, £194,215 in 1950 and £284,818 in 1951.

† Comparison is affected by amalgamation of country municipalities and shires and by the formation of county councils.

‡ Repayments represent amounts provided each year for the redemption of long term debt from such sources as revenue, proceeds of sale of assets, and repayments of debts owing to councils. They include yearly and half-yearly instalments of principal, and credits to sinking fund consisting of appropriations from revenue and interest earnings on sinking fund investments. Repayments from sinking funds and renewal or conversion loans are not included.

* Sinking funds of the City of Sydney and Sydney County Council are large as most of their loans were raised for fixed periods with provision for repayment through sinking funds. They are small for other councils, which borrow usually on terms requiring repayment by yearly or half-yearly instalments.
† See note "Amalgamation of Areas", page 183. ‡ Comparison is affected by the amalgamation of country municipalities and shires and by the formation of county councils.

CHARGES FOR WATER in 1951–52: A rate of 10d. in the £ on the assessed annual value of ratable property and a basic charge per meter of 1s. 6d. per 1,000 gallons of excess water. The charge for excess water was increased to 1s. 9d. per 1,000 gallons as from 1st July, 1952. For gardens not exceeding 1,000 sq. ft., there is a flat charge of 15s. in addition to the rate, if no meter is installed.

RESERVOIRS: Capacity of the nine storage reservoirs is 124,892 million gallons and the catchment area drained is 3,759 sq. miles. There are 102 service reservoirs with aggregate capacity of 542,692,000 gallons.

*The following inter-fund items, included in expenses of the Consolidated Revenue Fund and revenue of the Railways, and the Trams and Omnibuses are omitted from the column "Total Budget" to avoid duplication:—(a) Contribution towards losses on developmental railways, £800,000 yearly, (b) part of Commonwealth grant for revenue losses in Coal Strike—to Railways £3,000,000, Trams and Buses £200,000 in 1949-50. †Includes exceptional items (a) *Revenue* £3,888,772 and (b) *Sinking Fund* £3,840,000 associated with special repayment of Deficiency Treasury Bills. ‡ Amounts below differ from corresponding particulars in the Treasurer's Public Accounts as they omit the payments hereunder from Consolidated Revenue Fund of charges attributable to the business undertakings which are fully reflected in the expenditure of the undertakings. Such omissions comprise payments on account of (a) debt charges, which were small until totalling yearly from 1947-48, £205,452, £2,170,910, £4,850,363, £7,181,093, £4,334,287 and £1,925,315 and (b) losses of Tram and Omnibus services, £2,600,000 in 1952-53.

No. 5.—State Taxation Collections, 1941–42 to 1952–53.

Uniform Income Tax. Since 1st July, 1942, the Commonwealth Government has been the sole authority levying tax on incomes in Australia. The Commonwealth tax is levied at uniform rates throughout Australia and replaced the separate taxes formerly levied at various rates by the Commonwealth and each of the States. A similar system operated for a time in respect of Entertainments Tax. The States are reimbursed by the Commonwealth for suspension of their separate taxes.

Amounts received annually by New South Wales under the uniform taxation system since 1942-43 consist of (*a*) arrears of State Income Tax collected, and (*b*) Commonwealth Reimbursement Grants, as shown in the first and last columns, respectively, of the table below.

Year ended 30th June.	Tax on Incomes.	Probate Duties.	Stamp Duties.	Racing and Betting. *	Motor Taxes, Registrations, Licences, etc. †	Liquor Licences.	Other Licences, etc. ‡	Total State Taxes.	Commonwealth Reimbursement (Uniform Taxes).

* Income Tax and Social Services Contribution.

No. 7.—Income Tax and Social Services Contribution payable on Incomes Derived by Individuals in 1952–53 and 1953–54.

Tax on income of individuals is levied by the Commonwealth. In the following examples, illustrating the incidence of the tax, concessions have been allowed for the dependants indicated, but no allowance has been made for other concessions such as medical expenses, life assurance premiums, etc.

Actual Income.	Tax Payable on Income Derived from Property in 1952–53.*				Tax Payable on Income Derived from Personal Exertion in 1952–53.*				Tax Payable on Income Derived from All Sources in 1953–54.†

* Tax payable on income derived wholly from property or wholly from personal exertion respectively. The examples shown above for 1952–53 are not applicable to income derived partly from each source. † Differential rates of tax on income derived from property were abolished in 1953–54.

No. 8.—Road and Traffic Funds—Receipts and Disbursements, 1946-47 to 1952-53.

Receipts by the State from the taxation and registration of road transport vehicles, licensing of drivers, etc., are paid into special funds for road and traffic purposes as shown below. Disbursements on specified services represent actual payments during each year; payments to road making authorities consist almost entirely of transfers to the Main Roads Funds of which particulars are shown in Table 9.

Particulars.	Year ended 30th June.

* See note * to Table 16. † Debt repayable in dollars, converted at the rate of $4·8665 to £1. ‡ Represents one year's interest on the debt outstanding at 30th June. The distribution of the total amount, £17,541,971, according to place of payment, was: Australia £13,321,817 (Australian currency), London £3,860,251 (sterling) and New York £359,903 (amount payable in dollars, converted at rate of $4·8665 to £1). The amount of interest actually paid, and the exchange on overseas interest, is shown in Table 23.

† Face Value of Securities converted at rate of $4·8665 to £1.

‡ Cash balance in fund at 30th June, 1953, amounted to £2,022,723.

In terms of the Financial Agreement, contributions are paid annually to the National Debt Sinking Fund in respect of New South Wales debt, as follows:—

1. For 58 years from 1st July, 1928, on net debt outstanding at 30th June, 1927—(*a*) 2s. 6d. per cent. by Commonwealth. (*b*) 5s. per cent. by State.

2. For 53 years on new loans raised after 30th June, 1927 (except for revenue deficits)—5s. per cent. each by Commonwealth and State.

Upon agreement that a loan expended on wasting assets should be redeemed within a shorter period, the State's contribution is increased to provide for redemption within the period fixed, allowing for accumulation at 4½ per cent. compounded.

3. On loans raised to meet a revenue deficit accruing after 30th June, 1927—(*a*) Special deficit loans incurred in depression, 5s. per cent. each by Commonwealth and State, until 30th June, 1944, thereafter for 39 years 5s. per cent. by Commonwealth and 15s. per cent. by State.
(*b*) On other deficit loans, at least 4 per cent., payable by the State, to be accumulated at 4½ per cent. per annum, compounded.

4. Interest on cancelled securities at the rate of 4½ per cent.

Additional contributions are paid by the State to recoup amounts appropriated from the Sinking Fund for discounts on conversions since November, 1936. The additional contributions are spread over the currency of the conversion loans, and the first payment was made in 1938-39.

No. 26.—Loans Guaranteed by State, raised by Corporate and Other Bodies, 1952 and 1953.

In addition to liability for its own loans, the State has a contingent liability under guarantees for the repayment of capital raised by certain corporate authorities, institutions and bodies engaged generally in the promotion of public welfare and development.

No. 7.—Trading Banks—Deposits and Advances in New South Wales, 1939 to 1953. (Averages of Weekly Figures.)

This table relates to all trading banks with branches in N.S.W.; these numbered twelve in recent years, as listed in Tables 3 to 6, excluding one in voluntary liquidation and process of amalgamation with another bank. Business of the banks is organised on an Australia-wide basis and statements of deposits and principal assets in Australia are shown in Tables 8 and 9.

* Since January, 1949, technical changes by certain banks in method of compilation have had the effect of reducing non-interest bearing deposits and advances by like amounts. The amounts in months of change were £5,812,000 in January and £668,000 in July, 1949. † Called "nine trading banks" in previous issues. These have been reduced to seven by amalgamations. ‡ Series revised since last issue by exclusion of particulars relating to Rural Credits, Mortgage, and Industrial Finance Departments of the Commonwealth Bank.

No. 8.—Trading Banks—Deposits, etc., in Australia, 1939 to 1953.
(Averages of Weekly Figures.)

This table, with Table 9, showing particulars of principal assets, relates to all trading banks transacting business in Australia. There were sixteen such banks in June, 1953, as listed in Tables 4 and 11, excluding one in voluntary liquidation and process of amalgamation with another bank. Four of the banks do not operate in New South Wales.

* Not available. † Since January, 1949, technical changes by certain banks in method of compilation have had the effect of reducing non-interest bearing deposits and advances by like amounts (the amounts in months of change were £9,017,000 in January and £2,626,000 in July, 1949). ‡ See note † to Table 7. § See note ‡ to Table 7. ‖ In the Major Private Trading Banks the increase after June, 1947, consists mainly of short-term loans from the Central Bank.

No. 9.—Trading Banks—Principal Assets in Australia, 1939 to 1953. (Averages of Weekly Figures.)

This table relates to all trading banks transacting business in Australia, as described in Table 8, which shows particulars of deposits with the banks. The ratios of assets to deposits with Major Private Trading Banks are shown in Table 12.

No. 13.—Major Private Trading Banks and Commonwealth Bank—Classification of Advances, New South Wales and Australia, at end of December, 1951 and 1952.

This table, compiled from information supplied to the Commonwealth Statistician by the Major Private Trading Banks and the Commonwealth Bank (General Banking Division), shows advances in New South Wales and Australia, classified according to borrower. *Business Advances* are those made mainly for business purposes and include all loans to corporate bodies other than public authorities. *Advances to Public Authorities* are those made to Commonwealth, State and Local Governments, Government Agencies and Semi-Governmental Authorities irrespective of the purpose of the advance. *Personal Advances* include advances to persons in their private capacity for such purposes as purchase of a house or household equipment, repayment of personal debts, etc.

* Includes Trustee Savings Banks in Tasmania at balance date 31st August.

No. 16.—Savings Certificates—Net Sales, 1939-40 to 1952-53.

Savings Certificates (called War Savings Certificates until July, 1946) were sold by the Commonwealth Government from March, 1940, to 31st January, 1949, when sales were discontinued.

The Certificates may be cashed on demand and bear tax free interest which is payable on redemption.

Certificates were originally issued in two series, viz. :—

(*a*) Seven-year series yielding 3¼ per cent. compound interest per annum—sold from March, 1940, to February, 1947—and

(*b*) Five-year series yielding 2⅝ per cent. compound interest per annum—sold from 1st March, 1947, to 31st January, 1949.

On maturity, Series (*a*) was convertible into Series (*b*). Series (*b*), which commenced to mature in March, 1952, in most instances, may be extended for another five years at 3¼ per cent. compound interest per annum. The last of the Savings Certificates will mature in 1960.

Year ended 30th June.	Net Sales of Savings Certificates.*				Year ended 30th June.	Net Sales of Savings Certificates.*

No. 17.—Commonwealth Bank of Australia, Central Banking Business and Note Issue Department, Averages of Weekly Balance Sheets, 1946 to 1953.

The departments of the Bank were reorganised and the form of weekly returns altered in terms of the Commonwealth Bank Act, 1945. Data comparable with those below are therefore not available prior to September, 1945. Summaries of returns in respect of earlier years were shown in Table 13 of the Private Finance section of the Statistical Register, 1946–47.

* Debits refer to all trading banks operating in New South Wales and Australia (excluding central banking business of the Commonwealth Bank) and were first collected in September, 1945. In previous issues of the Statistical Register, trends in the amount of payments made by cheque were illustrated by use of statistics of inter-bank clearings. The comparability of these statistics was affected by the amalgamation of two major banks from 1st October, 1951. † Excludes Rural and Industries Bank of Western Australia. ‡ Average of ten months ended 30th June, 1946.

No. 27.—Oversea Exchange Rates, 1929 to 1953.

Mean of Buying and Selling rates for Telegraphic Transfers quoted by Commonwealth Bank, or if these were not available, by other Australian Banks.

* Price paid by Commonwealth Bank of Australia. † Weighted average price for industrial gold sold on oversea premium markets (see NOTE below).

NOTE.—All newly-mined gold is compulsorily acquired by the Commonwealth Bank of Australia at the official price (£15 9s. 10d. per fine oz. since Sept., 1949). From 20th November, 1951, the Commonwealth Bank, after providing for domestic consumption, sells the balance of the gold to the Gold Producers' Association Ltd. at the official price. The Association is authorised to sell the gold on oversea premium markets if the sale is for industrial purposes and payment is made in United States' dollars. Profits from the sale are distributed to producers by the Association.

No. 35.—Yields on Commonwealth Government Securities in Australia, 1935–36 to 1952–53.

Yields quoted below were calculated by the Commonwealth Bank of Australia. Those for the years 1936 to 1941 relate to Commonwealth securities issued prior to 1st January, 1940. Interest on these is subject to Commonwealth income tax, but the rates of tax may not exceed those in force in 1930–31.

For 1942 and later years the yields relate to securities issued after 1st January, 1940. Interest thereon is subject without limitation to Commonwealth income tax at current rates, as imposed on each year's income.

Interest on Commonwealth securities was exempt from State income taxes, but this concession became ineffective in respect of interest accruing after 30th June, 1941, owing to the discontinuance of State taxes on the introduction of the Commonwealth Uniform Tax plan. As a compensating benefit, a rebate of tax is allowed equal to 2s. per £1 of interest from Commonwealth securities.

No. 36.—Stock Exchange (Sydney)—Index of Share Prices, 1941-42 to 1952-53*.

This index relates to ordinary shares of the principal companies (excluding banking companies) listed on the Sydney Stock Exchange whose business is conducted wholly or largely in New South Wales. The prices of individual shares are unweighted, and each group average is the mean of the average monthly prices per £1 of paid-up capital. The aggregate index is the average of all shares included in the groups with addition of 24 miscellaneous shares. There is no base period as the index represents the ratio per cent. of average prices of ordinary shares to their par values, adjustment being made where capital is written off or bonus shares issued, etc.

Average for Period.	23 Manufacturing and Distributing Companies.	10 Retail Companies.	8 Public Utility Companies.	5 Pastoral and Finance Companies.	5 Insurance Companies.	Total: 75 Companies.	34 Active Shares included in foregoing.

No. 47.—General Insurance—Business Transacted in New South Wales, 1951–52.

Definitions.—These data are selected items of statistics conforming substantially to the following definitions and are not construable as a " profit and loss " statement or " revenue account." (*a*) Premiums represent the full amount receivable in respect of policies issued or renewed in the year, less returns, rebates and bonuses paid or credited to policy holders in the year. They are not adjusted for premiums unearned at the end of the year, consequently the amounts shown differ from earned " premium income " appropriate to the year. When figures are increasing, as in recent years, premiums receivable (as shown) are greater than " earned premium income " appropriate to the year ; the converse applies when figures are declining. (*b*) Claims include provisions for outstanding claims and represent claims incurred in the year. (*c*) Other expenditures mainly represent payments in the year.

Class of Business.	Premiums Receivable, less Rebates and Bonuses.	Claims and Expenses.

* Does not include the value of interests in property limited to cease on death of deceased. These became liable for duty from 25th November, 1952.

† Additional value of estates on which duty has been paid in previous years has been included in several groups. ‡ Comprises estates not liable for Duty. Until 24th November, 1952, these consisted of (*a*) those not exceeding £500, (*b*) those not exceeding £1,000 passing to a widow or children under age 21 years and (*c*) those of servicemen who died as a result of injuries received or disease contracted on active service. On 25th November, 1952, exemptions (*a*) and (*b*) were increased to £1,000 and £2,500 respectively, and property passing to a widower was included under (*b*).

PART V.

TRADE, TRANSPORT AND COMMUNICATION.

Statistics for 1952–53 in respect of the principal summary tables in Part V are shown in abbreviated form on page 302.

Section I.—OVERSEA TRADE.

Table No.

		Page.
1.	Total Oversea Trade of New South Wales, 1941–42 to 1951–52	307
2.	Oversea Trade of New South Wales at Each Port, 1941–42 to 1951–52	307
3.	Import and Export Price Index Numbers, Australia, 1938–39 to 1951–52	307
4.	Direction of Oversea Trade of New South Wales, Principal Countries, 1949–50 to 1951–52	308
5.	Imports into New South Wales from Each Country outside Australia, 1938–39 to 1951–52	309
6.	Exports from New South Wales to Each Country outside Australia, 1938–39 to 1951–52	312
7.	Imports into New South Wales from Oversea Countries, Summary, 1941–42 to 1951–52	315
8.	Exports from New South Wales to Oversea Countries, Summary, 1941–42 to 1951–52	315
9.	Oversea Imports into New South Wales, Classes of Goods, 1944–45 to 1951–52	316
10.	Oversea Exports from New South Wales, Classes of Goods, 1947–48 to 1951–52	317
11.	Oversea Imports into New South Wales, Classes and Countries of Origin, 1950–51	318
12.	Oversea Imports into New South Wales, Classes and Countries of Origin, 1951–52	319
13.	Oversea Exports from New South Wales, Classes and Countries of Destination, 1950–51	320
14.	Oversea Exports from New South Wales, Classes and Countries of Destination, 1951–52	321
15.	Principal Items Imported Oversea into New South Wales, 1949–50 to 1951–52	322
16.	Principal Items of Australian Produce Exported Oversea from New South Wales, 1949–50 to 1951–52	323
17.	Oversea Imports into New South Wales, Articles in Classes, 1949–50 to 1951–52	324
18.	Oversea Exports from New South Wales, Articles of Australian Produce in Classes, 1949–50 to 1951–52	333
19.	Principal Exports from New South Wales to Oversea Countries, 1938–39 to 1951–52	341
20.	Ships' Stores Exported Oversea from New South Wales, Australian and Other Produce, 1940–41 to 1951–52	348
21.	Ships' Stores Exported Oversea from New South Wales, Items, 1949–50 to 1951–52	348
	Customs and Excise Duties, Net Collections—	
22.	In Tariff Divisions, 1938–39 to 1951–52	349
23.	Stimulants, Narcotics and other Dutiable Goods, 1941–42 to 1951–52	349
24.	Customs Duties—Gross Collections in New South Wales on Beer, Spirits, Wines and Tobacco, 1946–47 to 1951–52	349
25.	Excise Duties—Gross Collections in New South Wales on each Item, 1938–39 to 1951–52	350
26.	Excise Tariff, Rates of Duty on Principal Articles, 1942 to 1952	350

Section II.—INTERSTATE TRADE.

1.	Total Interstate Cargoes Discharged and Shipped at Principal Ports of New South Wales, 1941–42 to 1951–52	351
2.	Port of Sydney—Direction of Interstate Trade, 1949–50 and 1951–52	351
3.	Port of Sydney—Items of Interstate Imports, 1946–47 to 1951–52	352
4.	Port of Sydney—Principal Items of Interstate Imports and Exports, 1949–50 to 1951–52	354
5.	Port of Sydney—Items of Interstate Exports, 1946–47 to 1951–52	355
6.	Port of Newcastle—Items of Interstate Imports, 1946–47 to 1951–52	356
7.	Port of Newcastle—Items of Interstate Exports, 1946–47 to 1951–52	356
8.	Port Kembla—Items of Interstate Trade, 1949–50 to 1951–52	356
9.	Imports into New South Wales from Western Australia—Principal Items, 1947–48 to 1950–51	357
10.	Exports from New South Wales to Western Australia—Principal Items, 1947–48 to 1950–51	357
11.	Imports into New South Wales from Western Australia, 1947–48 to 1950–51	358
12.	Exports from New South Wales to Western Australia, 1947–48 to 1950–51	360
13.	Imports into New South Wales from Tasmania—Principal Items, 1948–49 to 1951–52	363
14.	Exports from New South Wales to Tasmania—Principal Items, 1948–49 to 1951–52	363
15.	Imports into New South Wales from Tasmania, 1948–49 to 1951–52	364
16.	Exports from New South Wales to Tasmania, 1948–49 to 1951–52	365
17.	Interstate and Islands Shipping Freight Rates–General Cargo, 1946 to 1952	366
18.	Interstate Rail Freight, New South Wales, 1938–39 to 1950–51	366

Section III.—COASTAL TRADE.

1.	Intrastate Trade of Principal Ports, New South Wales, 1941–42 to 1951–52	367
2.	Trade of New South Wales Outports with Sydney, 1946–47 to 1951–52	367
3.	Port of Sydney—Principal Items of Intrastate Imports and Exports, 1949–50 to 1951–52	367
4.	Port of Sydney—Intrastate Imports, 1946–47 to 1951–52	368
5.	Port of Sydney—Intrastate Exports, 1946–47 to 1951–52	370
6.	Port of Newcastle—Intrastate Imports, 1946–47 to 1951–52	370
7.	Port of Newcastle—Intrastate Exports, 1946–47 to 1951–52	371

Section IV.—SHIPPING.

1.	Shipping Entered and Cleared, New South Wales, 1941–42 to 1951–52	372
2.	Shipping (N.S.W.), Entered from Principal Countries, 1941–42 to 1951–52	372
3.	Shipping (N.S.W.), Cleared for Principal Countries, 1941–42 to 1951–52	372
4.	Shipping (N.S.W.), Entered from and Cleared for Principal Countries, 1950–51	373
5.	Shipping (N.S.W.), Entered from and cleared for Principal Countries, 1951–52	373
6.	Nationality of Shipping Entered, New South Wales, 1941–42 to 1951–52	374
7.	Nationality of Shipping Cleared, New South Wales, 1941–42 to 1951–52	374
8.	Nationality of Shipping Entered and Cleared, New South Wales, 1950–51	374
9.	Nationality of Shipping Entered and Cleared, New South Wales, 1951–52	375
10.	Shipping Entered, New South Wales, Countries and Nationality, 1949–50 to 1951–52	375
11.	Shipping Cleared, New South Wales, Countries and Nationality, 1949–50 to 1951–52	375
12.	Shipping (N.S.W.), Entered from and Cleared for Australian States, 1946–47 to 1951–52	376
13.	Shipping Entered and Cleared, with Cargo and in Ballast, at New South Wales Ports, 1950–51	376
14.	Shipping Entered and Cleared, with Cargo and in Ballast, at New South Wales Ports, 1951–52	377
15.	Shipping Entered and Cleared at New South Wales Ports, 1938–39 to 1951–52	378
16.	Shipping Entered and Cleared, N.S.W., with Cargo and in Ballast, 1940–41 to 1950–51	379
17.	Shipping Entered and Cleared, N.S.W., with Cargo and in Ballast, 1941–42 to 1951–52	379
18.	Cargoes Discharged and Shipped, New South Wales, 1941–42 to 1951–52	380
19.	Cargoes Discharged at New South Wales Ports, 1938–39 to 1951–52	380
20.	Cargoes Shipped at New South Wales Ports, 1938–39 to 1951–52	380
21.	Oversea Cargoes Discharged (N.S.W.), according to Country of Origin of Voyage, 1946–47 to 1951–52	381
22.	Oversea Cargoes Shipped (N.S.W.), according to Country of Termination of Voyage, 1946–47 to 1951–52	381
23.	Oversea Cargoes Discharged (N.S.W.), according to Nationality of Vessel, 1938–39 to 1951–52	382

Section IV.—SHIPPING—*continued.*

Table No.		Page.
24.	Oversea Cargoes Shipped (N.S.W.), according to Nationality of Vessel, 1938–39 to 1951–52	382
25.	Shipping Entered at Sydney, Newcastle and Port Kembla, 1941–42 to 1951–52	382
26.	Shipping Entered at Outports, N.S.W., 1938–39 to 1951–52	383
27.	Shipping on the Register, Sydney and Newcastle, 1942 to 1952	383
28.	Shipping on the Register at Sydney and Newcastle, 1951 and 1952	383
29.	Shipping Registrations and Sales, Sydney and Newcastle, 1946–47 to 1951–52	383
30.	Vessels for which Certificates of Seaworthiness were issued in New South Wales, 1941–42 to 1951–52	384
31.	Vessels for which Certificates of Seaworthiness were issued in New South Wales, 1949–50 to 1951–52	384
32.	Rates of Freight Oversea, New South Wales to United Kingdom and Europe, 1939 to 1952	385

9.	Broadcasting Stations and Listeners' Licences, New South Wales, 1942–43 to 1952–53	412
10.	Radiocommunication Stations Authorised in New South Wales and Australia and Territories, 1947 to 1953	413

PART V.—TRADE, TRANSPORT AND COMMUNICATION.

Section I.—OVERSEA TRADE.

Statistics of the Oversea Trade of Australia are compiled by the Commonwealth Bureau of Census and Statistics from records of the Department of Trade and Customs; details are published annually in the Commonwealth Bulletin of Oversea Trade and Customs and Excise Revenue.

Particulars of the Oversea Trade of New South Wales published in this section of the Statistical Register were compiled from tabulations supplied by the Commonwealth Bureau of Census and Statistics.

Basis of Valuation.—The values of oversea imports and exports are expressed in Australian currency free on board at port of shipment.

Wartime Trade.—Lend-lease imports and exports for the Forces in the Pacific Area were included in statistics of Oversea Trade during the war, but supplies imported or exported direct to their nationals by visiting Allied Forces were not included. Customs entries for lend-lease goods were frequently delayed for some months and in such cases the imports were recorded in the month in which entry was passed.

Records are not available regarding some lend-lease imports and exports of war materials on Government account for which entries were not passed in the normal way. The Commonwealth Statistician has estimated that the value (in Australian currency f.o.b.) of this unrecorded trade of Australia (all States) was as follows :—

Imports £18,350,000 in 1941–42, nil in later years. Exports (non-foodstuffs) £12,645,000 in 1941–42, £2,500,000 in 1942–43, £10,000,000 in 1943–44 and £2,000,000 in 1944–45. These amounts cannot be apportioned among the various States and no estimate of the amount of New South Wales trade unrecorded is included in the statistics published herein.

No. 1.—Oversea Trade of New South Wales, 1941–42 to 1951–52.

Year ended 30th June.	Merchandise.			Bullion and Specie.		Total Trade.

Section IV.—SHIPPING.

The Shipping Statistics of New South Wales contained in Tables 1 to 24 relate generally to vessels engaged in normal trade, that is, the carriage of part or full cargoes for civil purposes. They are exclusive of vessels trading solely between ports of New South Wales, war vessels, cable-laying vessels, yachts, and, during the war period, vessels engaged exclusively in the transport of troops, war equipment and supplies. Vessels are entered at the first port of call in New South Wales and cleared at the port from which final departure is taken. The repeated voyages of vessels are included and net tonnage is shown. In Tables 25 and 26 particulars are shown regarding all vessels (excluding warships) which entered the principal ports of New South Wales, viz.: oversea, interstate and intrastate vessels, including vessels engaged exclusively in the transport of troops, war equipment and supplies.

Gross tonnage of a vessel is the internal cubical capacity expressed as tons; one hundred cubic feet equals one ton.

Net tonnage of a vessel is gross tonnage as defined above less spaces which cannot be utilised for carriage of cargo and passengers, e.g., engines and crew's quarters.

No. 1.—Shipping Entered and Cleared—New South Wales, 1941–42 to 1951–52.

(Exclusive of vessels trading solely between ports of New South Wales.)

* Gauge is 4 ft. 8½ in. Sydney suburban electric lines, 110 miles 32 chains at 30th June, 1952, are included.
† Repayment of interest-free loan from the Treasury, 1933–34 to 1937–38, for reconditioning track.
‡ Includes a special grant of £3 m. from the Commonwealth Government towards losses due to an industrial dispute in coal mines, June to August, 1949.
§ The aggregate amount in this column is £11,570,000, which, except £190,000 for adjustment of stock values, was credited to reserves. From reserves £671,187 was contributed to the Consolidated Revenue Fund in 1944–45 towards the redemption of Treasury Bills, and other expenditure was as follows :—

Year.	Accrued Maintenance.	New Rolling Stock and Equipment.	Improvements.	Accrued Staff Leave.	Refreshment Rooms.	Total.
	£	£	£	£	£	£
1944–45 ...	...	848,084	...	...	...	848,084

* Includes contribution, £800,000 per annum, by the State Government towards loss on non-paying developmental lines.
† Railways have been charged with contributions to National Debt Sinking Fund since 1st October, 1937. The full amount payable each year to the State Treasury is shown above. In the railway accounts, part of the contribution is shown as a capital charge, part included in working expenses.

* A "factory" is an establishment employing four or more persons or using power (other than manual). † Average during whole year, including working proprietors. ‡ The value of "production" is the value added to materials by the processes of manufacture. § The value of "output" is usually the selling value at the factory.

No. 9.—Motor Vehicle and Cycle Factories, New South Wales—Employees, Production, etc., 1951–52.

NOTE.—Further details of motor vehicle production (including definitions) are given in the Part "Factories and Works." In 1951–52, Motor Body factories made 9,276 motor bodies (excluding cabins and conversions) with a total value of £2,687,605.

* Further details are given in the Part "Finance."

Motor Vehicle Tax.—At 30th June, 1953, the annual rates of tax on pneumatic-tyred motor vehicles, were as follows:—

Car ... ... approx. 3s. 4d. per half cwt.
Omnibus ... ... approx. 5s. 1d. ,, ,,
Motor Cycle, Solo ... ... £1 7s. 0d.
Motor Cycle, with side-car or box ... £2 7s. 6d.

In the case of other vehicles (mainly lorries), the rate of tax increases with the unladen weight; e.g., the annual tax is £6 5s. on a vehicle of 20 cwt., £17 on one of 40 cwt., and £36 15s. on one of 60 cwt. Double the ordinary rates of tax are payable in respect of diesel vehicles. Primary producers' motor lorries, etc., are taxed at 90 per cent. of the ordinary rates.

The motor registration fee is £1 5s. per annum and driver's licence fee, 15s. per annum.

Section VII.—ROAD ACCIDENTS.

No. 1.—Road Accidents, New South Wales, 1941–42 to 1951–52.

Statistics of Road Accidents.—Road vehicle accidents in New South Wales resulting in personal injury or death, or damage to property exceeding £5, must be reported to the police within twenty-four hours. Statistics in this section relate to all accidents reported to the police except non-casualty accidents which did not involve a breach of the law or damage to property other than vehicles.

Section VIII.—AIR TRANSPORT.

No. 1.—Air Transport—Regular Services, New South Wales, 1945–46 to 1951–52.

These statistics, compiled by the Department of Civil Aviation, relate to regular services with terminal in New South Wales (excluding one oversea service). Where a journey extends over more than one of these services, particulars of passengers, freight and mail carried are duplicated in the statistics.

Year ended 30th June.	Hours Flown.	Miles Flown.	Passengers.	Passenger Miles.	Freight.		Mail.

* See note ‡ under Table 3.

† The "average daily attendance" is based on the attendance on each school day in the year.

‡ The "individual" enrolment represents the number of individual children who attended a public school during the whole or some portion of the year, those who attended more than one school being counted only once.

No. 12.—Public Schools—Ages of Pupils, August, 1943 to 1953.

Effective Enrolment.*

(Exclusive of Subsidised Schools and Evening Colleges.)

Compulsory Attendance.—In the years 1917 to 1939 children were required to attend school from age 7 to 14 years; in 1940 from 6 to 14 years; in 1941 from 6 to 14 years 4 months; in 1942 from 6 to 14 years 8 months; and since 1943 from age 6 to 15 years.

*Under the Public Instruction Act of 1880, it is provided that the teaching in public schools must be strictly non-sectarian. Secular instruction imparted by teachers is defined as including "general religious teaching as distinguished from dogmatical or polemical theology." Religious instruction may be given by authorised teachers of any religious persuasion to children of their religion for a maximum period of an hour each school day, children of different persuasions to be instructed on different days.

Subsidised Schools.—Subsidies are granted in the case of children resident in country districts so far removed from any public school that attendance is impracticable. Where a private teacher, approved by the Minister, is engaged by one or more families, subsidy is paid to the teacher at a rate based on average monthly attendance; in 1953 the rates ranged from £46 17s 6d. to £137 10s. 0d. per annum in the eastern section of the State, and from £51 11s. 3d. to £150 in the western section.

NOTE.—*Private Schools.* Any school, other than a State school, attended by children of statutory school age must be certified by the Minister for Education as efficient (taking into account the standard of instruction, qualifications of the teachers, suitability of school premises and general conduct of the school). Private secondary schools must be registered for the education of pupils holding State bursaries under the Bursary Endowment Act. Certified schools at private charitable institutions are included in statistics of private schools; business schools, ecclesiastical seminaries and uncertified nursery and kindergarten schools are not included.

* See note ‡ under Table 3. † See note † under Table 11.

NOTE.—These libraries are operated by Local Government Authorities and are subsidised by the State under the Library Act, 1939–1952, which is administered by the Library Board. Only councils which have adopted the Act are entitled to State subsidy. Two or more councils may co-operate in providing library service. The number of volumes in the libraries at 30th June, 1953, was approximately 847,000.

* Including Australian Capital Territory. † Approximate. ‡ Immigrants in training for employment are included in "Benefit Paid." All other particulars exclude these immigrants. ¶ Not available.

Note.—Payment of these benefits commenced on 1st July, 1945. Benefit is paid, subject to a means test, to persons between ages 16 and 65 years (60 years if a woman), viz., *unemployment benefit* to unemployed persons who are able and willing to work and *sickness benefit* to those temporarily incapacitated through sickness or accident who have thereby suffered loss of wages or other income. The waiting period is 7 days.

Section III. — BUILDING.

NOTES.

1. The statistics given in this section relate to building structures and exclude other types of construction. Repairs, renovations, and minor alterations to buildings, and most buildings on rural holdings are excluded.

2. Statistics of building throughout the State by Commonwealth, State, and local governmental authorities have been compiled since July, 1939. Statistics of private building approved in 1946 and earlier years were derived from returns of permits to build issued by the local government councils of the Metropolis of Sydney, 129 country towns (including 11 in the Balance of Cumberland) and 7 extra metropolitan shires; for 1947 and later years, returns of permits to build have been obtained from all local councils in the State. Additional particulars relating to buildings actually commenced and completed are collected from building contractors and owner-builders.

3. "Value" represents the estimated cost of the building when completed (exclusive of the land).

4. Building is classified as "government" or "private" according to ownership. Many buildings classified as "government" are constructed by private builders on contract to governmental authorities.

5. "Value of Building Approved" is (i) for private building — the value of permits issued by local government councils; and (ii) for government building — the value of contracts let or work commenced and day labour jobs authorised by governmental authorities.

6. "Number of Houses and Flats Approved" is (i) for private buildings — the number for which local government council permits were issued; and (ii) for government buildings — the number included in contracts let or day labour jobs authorised by governmental authorities.

* Includes dwellings converted into flats.

† From 1st January, 1949, the boundaries of the City of Sydney were extended to include the municipalities of Alexandria, Darlington, Erskineville, Glebe, Newtown, Paddington, Redfern and Waterloo. For comparative purposes, the statistics for all the years shown relate to the new City of Sydney area.

‡ See introductory note 2.

§ "Rest of State," which comprises only 118 towns, is incomplete; particulars of permits issued by most shire councils were not collected prior to 1947.

¶ Permits issued by all municipal shire councils.

No. 3.—Value of Private Building* Approved in N.S.W.—Type of Building, 1943 to 1953.

Permits issued by local councils.

Section V. PRICES, WAGES AND EMPLOYMENT.

PRICES.

No. 1.—Retail Price Index Numbers ("C" Series)—Quarterly, 1928 to 1953.

Base: Weighted Average for Six Capital Cities in 1923-27 = 1,000.

NOTE—1. The index numbers are compiled by the Commonwealth Statistician and are described fully in the Commonwealth "Official Year Book" and "Labour Report." They are designed to measure the extent of changes in prices of goods and services within a regimen which is representative of a high proportion of the expenditure of wage-earner households.

2. The *group* index numbers cannot be compared with each other, as, for example, to compare the relative cost of housing and of food and groceries, since the cost *in each group* in 1923-27 (weighted average, six capital cities) is made equal to 1,000.

WAGES.

No. 5.—Basic Wages—Sydney—1939 to 1953.

The wage-regulating tribunals exercising jurisdiction under State or Federal law base their determinations upon "living" or "basic" wages which represent the minimum rates which may be prescribed for adult unskilled workers. The determination of living wages for men and women in industries under State jurisdiction was a function of the Industrial Commission of New South Wales from 1926 to 1937. In October, 1937, the basic wage of the Commonwealth Court of Conciliation and Arbitration was adopted.

In the Commonwealth jurisdiction, basic wages are determined by the Full Bench of the Commonwealth Court of Conciliation and Arbitration. Until August, 1953, the rates were usually subject to automatic adjustment at quarterly intervals according to the "Court Series" of Retail Price Index Numbers, which corresponded with the "C" Series Index compiled by the Commonwealth Statistician for the capital cities and certain towns in Australia. In September, 1953, the Commonwealth Court of Conciliation and Arbitration abolished quarterly adjustments.

Female Wages.—The minimum wage per week payable (Sydney) to adult females was:—

1950: Dec. 123s. 6d.

1951: Feb. 129s. 6d.; May 135s.; Aug. 144s. 6d.; Nov. 155s.

1952: Feb. 162s.; May 167s.; Aug. 176s.; Nov. 177s. 6d.

1953: Feb. 178s. 6d.; May 180s. 6d.; Aug. 182s.†

* As a result of judgments of the Commonwealth Arbitration Court, special increases were awarded in December, 1946 (7s.) and in December, 1950 (19s.). † Current in June, 1954 (see text above table).

No. 6.—Average Nominal Weekly Wage Rates and Average Weekly Standard Working Hours, New South Wales, 1939 to 1953.

Compiled by Commonwealth Statistician. The wages data are based upon the minimum amounts payable for a full week's work, calculated on the minimum hourly, daily or weekly rates prescribed by industrial awards and agreements or the predominant rates for a few occupations not subject thereto. The rates relate to the Metropolitan Area (Sydney) except in industries such as the mining, agricultural and pastoral industries.

Minimum wage rates in certain occupations are shown in Table 8 and an arithmetic mean of these and other occupations is shown according to industrial groupings in Table 7. In computing the average for all industries combined (Table 6) the average for each group is weighted according to the number of workers in that group.

The average weekly standard working hours are calculated by similar method.

The data are in course of revision to meet changes in industrial structure. The amounts shown should not be regarded as actual current averages but as indexes expressed in money and hour terms.

No. 8.—Rates of Wages in Various Industries at 31st December, 1951 and 1952.

In regard to rates of wages, see note above Table 6.

Hours of Work.—The forty-hour week was prescribed by Act of the Parliament of New South Wales as the standard for industries within State jurisdiction as from 1st July, 1947, and by judgment of the Commonwealth Court for persons working under Commonwealth awards and agreements from the first pay period in January, 1948. Except where indicated by footnote, the hours in industries for which wages are shown are 40 per week.

Industry and Occupation.	Minimum Wage per Week at— 31st December, 1951.	31st December, 1952.
ADULT MALES.

* 38 hours. † 56 hours. ‡ Hours not quoted. § 44 hours.

No. 9.—Wages and Salaries Paid and Average Earnings per Male Unit, N.S.W.,* 1945–46 to 1953–54.

Compiled by the Commonwealth Statistician from employment and salaries and wages recorded on Pay Roll Tax returns (which cover approximately 80 per cent. of total private and government employment) and from estimates of the unrecorded balance; pay of members of the armed forces is not included. The figures are not seasonally adjusted.

Year	Total Wages and Salaries Paid: Weekly Average †	Average Weekly Earnings per Male Unit ‡
	£ thousand	£
1945–46	4,966	6·57
1946–47	5,838	6·81
1947–48	6,976	7·73
1948–49	8,133	8·73
1949–50	9,018	9·50
1950–51	11,385	11·46
1951–52	14,364	14·24
1952–53	15,090	15·50
1953–54	16,043	16·15

* Includes Australian Capital Territory. † Excludes pay of members of the armed forces.

‡ Total wages divided by total civil employment expressed in male units. Male units equal the number of males plus a proportion of females based on the approximate ratio of average female earnings to average male earnings.

EMPLOYMENT.

No. 10.—Industrial Disputes, N.S.W., in Existence during the Year, 1933 to 1953.

Statistics in Tables 10 to 14 are prepared from data collected and tabulated by N.S.W. Department of Labour and Industry and Social Welfare.

They only include workers directly involved in disputes. "Workers involved" is the sum of workers involved in each separate dispute. A dispute is counted as one dispute even if other workers subsequently become parties to it, but where workers cease in sympathy, each sympathy stoppage is counted as a separate dispute. If a dispute causes closure of a mine, all employees of the mine are deemed to be involved, but if mine work continues, only those ceasing work are counted as involved.

In calculating " working days lost " the days on which work ordinarily would be performed are taken into account, without allowance for intermittency of work from causes other than disputes, and for absenteeism. Hence the working days lost (in mining disputes in particular) tend to be overstated.

Year.	Disputes.			Workers Involved.			Duration—Working Days.

No. 17.—Workers' Compensation Act, N.S.W.—New Cases Reported, 1946–47 to 1952–53.

(Excludes cases of less than three days incapacity.)

The Act applies widely in providing for compulsory insurance and the compensation of workers in respect of injuries arising out of or in course of employment or the daily or other periodic journey between home and the place of employment. The principal classes of workers not covered by the Act are Commonwealth Government employees, the police, outworkers, casuals employed for one period only of five or less days other than for the purpose of the employer's business, employees whose remuneration (exclusive of overtime, bonuses and special allowances) exceeds £1,250 (£750 prior to 20th December, 1948), silica dust cases other than in coal mining, and workers compensable under the Workmen's Compensation (Broken Hill) Act.

* See note above Table 17. Compensation actually paid in the years as shown above cannot be related to the number of cases arising in the year (shown in Table 17) as in many cases payments overlap from year to year and in some continue for a number of years. The amounts shown do not represent total payments by insurers; they exclude payments in respect of cases under three days incapacity (compensable since 20th December, 1948), alternative benefits (e.g., by damages at Common Law), medical costs paid in numerous instances of minor injury which did not result in absence from work, and expenses of settlement and management.

No. 20.—Workers' Compensation (Silicosis) Fund, N.S.W.—Number of Cases and Funds, 1946–47 to 1952–53.

This fund was established for the compensation of workers (other than coal miners and Broken Hill miners) contracting disease by exposure to silica dust.

Year ended 30th June.	Awards made to Silicotic Workers.	Income.			Compensation Payments.

No. 21.—Workmen's Compensation (Broken Hill) Act—Beneficiaries and Compensation Payments, 1946-47 to 1952–53.

This Act provides for compensation for Broken Hill miners who contract pneumoconiosis or tuberculosis. Compensation for workers who entered employment in the mines after 31st December, 1920, is met wholly from mine-owners' contributions; other cases are a charge on the Broken Hill Pneumoconiosis-Tuberculosis Fund, to which mine-owners and the Government of New South Wales contribute equally.

Year ended June.	Compensation entirely by Mine Owners.				Compensation from the Fund.				Total Compensation Payments.

MINING—EXPLANATORY NOTE.

Statistics published in this Part were compiled mainly by the Department of Mines; certain supplementary data were obtained from the Joint Coal Board, or collected from mines by this Bureau under the Census Act, 1901.

For purposes of these statistics, the mining industry is taken as embracing not only the actual mining or quarrying operations but, also, crushing or ore dressing operations carried out in treatment works situated at or near the mine or quarry.

Detailed statistics of the quantity and value of each mineral produced, as set out in Tables 3 and 4, are available only from 1950; particulars available for 1949 and earlier years were published on pages 599 and 600 of the Statistical Register, 1950–1951.

In the following tables each mineral, and the value thereof, is recorded in the form in which the material leaves the working, e.g., in the case of a metal mine, as an ore if untreated before despatch, or as a concentrate if ore dressing operations are undertaken at or about the mine. The minerals are classified into four groups (metallic, fuel, and non-metallic minerals, and construction materials) and Table 3 shows, as well as quantities and values as above, the assayed contents of the various metallic minerals where these are of economic worth. In Table 4 such contents are reassembled to show the aggregate quantity of each metal or element contained in the various types of metallic minerals produced. The total contents, as shown, are known as "Mine Production," and as no allowance is made for losses in smelting and refining, they are, in general, greater than the quantities actually recoverable.

PART VII.—MINING.

No. 1.—Value of Minerals Produced, 1929 to 1953.

Year.	Coal.	Lead and Zinc Concentrates.	Other Minerals.	Total.	Year.	Coal.	Lead and Zinc Concentrates.	Other Minerals.	Total.

No. 2.—Classes of Mining Industry—Employment and Value of Output—1950 to 1953.

In this table, each mine has been classified to an industry according to its principal product and all products of the mine are included in the value of output of the industry. Persons employed include those engaged in the operations of mining and quarrying, and in crushing and ore dressing operations carried out in treatment works situated at or near the mine or quarry.

No. 3.—Minerals Produced—Quantity, Value and Contents, 1950 to 1953.

See Explanatory Note, page 558. Quantities and values of minerals produced are recorded in the form (i.e., as ores, concentrates, etc.) in which the material leaves the mine or treatment works situated at or near the mine. Actual production is recorded except where, as indicated by footnote, sales are considered the more appropriate basis. The assayed gross contents as shown in this table are summarised in Table 4 to show the total of each contained in metallic minerals of all kinds.

No. 4.—Contents of Metallic Minerals Produced, 1950 to 1953.

The contents of metallic minerals produced in N.S.W., as set out in Table 3, are reassembled below to show the "mine production" of each metal or element for which the ores, concentrates, etc., are to be further treated. These totals represent gross contents, as determined by assay, and make no allowance for losses in smelting and refining; hence the quantities shown are, in general, greater than those actually recoverable. The dissection showing contents "Available for Recovery in Australia" and "Destined for Export in Ores, etc." is based on preliminary advices received from producers or ore buyers.

* In calculating the average number of days on which collieries worked, each mine was given a weight equal to its average employment during the year. † Average.

No. 13.—Coal Produced per Manshift Worked, 1948 to 1953.

The following statistics were compiled by the Joint Coal Board from returns showing manshifts actually worked. They exclude mines in course of development prior to commencement of coal production. Calculations giving an approximate indication of the trend prior to 1948 were published on page 395 of the Statistical Register, 1948–1949.

Year.	Underground Mines.								Open-cut Mines.			
	Production per Manshift worked at Coal Face.*				Production per Manshift worked by All Persons Employed.				Production per Manshift worked by All Persons Employed.

* Based on value at pit-top (or at screens where these are situated at a distance from the mines) of saleable coal. This excludes miners' coal and coal consumed at collieries, and from 1951 excludes also saleable coal stacked at grass by Commonwealth Government. The values include Commonwealth Government price stabilisation subsidy payable in respect of coal during the war (from 1943) and early post-war years.
